

# app flow

## Amazon AppFlow

- Fully managed integration service that enables you to securely transfer data between **Software-as-a-Service (SaaS)** applications and **AWS**
- Sources: **Salesforce**, **SAP**, **Zendesk**, **Slack**, and **ServiceNow**
- Destinations: **AWS** services like **Amazon S3**, **Amazon Redshift** or non-AWS such as **Snowflake** and **Salesforce**
- Frequency: on a schedule, in response to events, or on demand
- Data transformation capabilities like filtering and validation
- Encrypted over the public internet or privately over **AWS PrivateLink**
